## **HORST ENGINEERING DE MÉXICO ACHIEVES NADCAP ACCREDITATION**

*Nadcap recognizes Horst Engineering de México, LLC for its commitment to continual improvement in aerospace quality*

GUAYMAS, SONORA, MEXICO, Oct. 21, 2011 -- Horst Engineering de México, LLC announces that it has received Nadcap accreditation for Chemical Processing. The launch of the company's Surface Treatment/Passivation process expands the capabilities that it can offer its aerospace customers.

"Accreditation is the culmination of excellent work by our team. This is the first such Nadcap certification for our company, and we are proud of our Guaymas team's efforts," said Scott Livingston, President and Chief Executive Officer.

Horst Engineering de México, LLC received Nadcap accreditation for demonstrating their ongoing commitment to quality by satisfying customer requirements and industry specifications.

"Achieving Nadcap accreditation is not easy: it is one of the ways in which the aerospace industry identifies those who excel at manufacturing quality product through superior special processes. Companies such as Horst Engineering work hard to obtain this status and they should be justifiably proud of it," said Joe Pinto, Vice President and Chief Operating Officer at the Performance Review Institute.

*Horst Engineering de México is a manufacturer of precision machined components and assemblies for aerospace, medical and other high technology industries. The company has an ISO9001:2008/AS9100 registered quality management system. The company operates plants in East Hartford, Connecticut, USA and Guaymas, Sonora, Mexico.
