

24 May 2021

Dear Customer,

As follow-up to [our initial move notification communicated in January](#), we have consolidated our Connecticut operations.

Our new address is:

HORST Engineering
141 Prestige Park Rd.
East Hartford, CT 06108

Please update your records. Our phone numbers and extension numbers remain the same. The new factory is three miles from our legacy headquarters on Cedar St.

Please direct physical mail to the new address.

All deliveries and pickups should be to/from the new address.

Shipping & Receiving: all pickups and deliveries will be at the rear of our building on Prestige Park Circle. We have a designated truck/commercial vehicle route. Please see the map for reference. Our Customer Service & Sales Team and Shipping Team will provide further detail as needed.

The consolidation of Sterling Machine, our Massachusetts operation, is ongoing. We will provide further updates about that pending address.

We have worked with our major customers and design authority holders to ensure the successful transition. Our third party AS9100/ISO9001 registrar will administer our transition audit in August. The [Quality Assurance page of our website](#) has links to our key quality certifications, and other documentation.

Please reach out to your Customer Service & Sales Team contacts if you have any questions. See our [website](#) for the latest information.

We look forward to the day that we can welcome you to visit our new state-of-the-art factory.

Sincerely,

Scott Livingston, President and CEO

Ronald Boyne, Vice President of Operations & Customer Service

Michelle Lane, Vice President of Finance & Human Resources
